

<b>CS 212 – Fall 2017 – Project 4</b>
---------------------------------------

Assigned: 1 December 2017  
Due: 11 December 2017  
Cutoff: 11 December 2017

You may modify either Project 2 or Project 3 to continue with this project.

Sort the Dates using a TreeMap. Most of the code you need is in the PowerPoint on Maps. The project, as usual, will open a file chosen by the user, and display the unsorted dates in the left TextArea, and the sorted dates from the TreeMap in the right TextArea.

Create a jar file called **Project4.jar** and submit that to Blackboard by the due date for full credit.
